

DIGESTMORE

The Enzyme for Sensitive Stomachs

Powerful Plant-Based Digestive Enzyme Formula with Enzymes, L-Glutamine & More to Support Digestive Tract Health*

- Digests Proteins, Carbs, Fats & Dairy*
- Soothes & Nourishes the Digestive Tract*
- Helps Relieve Occasional Gas, Bloating & Indigestion
- With *SmartZYME* Blend for More Complete Digestion*
- No Binders or Fillers

Why take Enzymes?

Enzymes help break down and digest food so the body can use it. Poor diet and rapid eating can cause incomplete breakdown of food. Without the enzymes needed for proper digestion, the body may not be able to digest and absorb the valuable nutrients it needs.

Who needs Enzymes?

Everyone can benefit from taking digestive enzymes with their meals, as they help maximize the nutrient intake from food.

Why are Plant Enzymes best?

All bodies are different. Some digestive tracts are more acidic, and some are more alkaline. Plant-sourced enzymes are best because they are effective in both acidic and alkaline systems.

DigestMORE is a plant-based digestive enzyme supplement blended with herbs and nutraceuticals for additional digestive support particularly for those with 'sensitive stomachs'.* **DigestMORE** contains 10 plant-based digestive enzymes, which help digest a variety of food material, including protein, starches, vegetable fiber, and dairy.* Additional

herbal and nutraceutical ingredients include marshmallow, ginger, and gamma oryzanol (from rice bran). The amino acids L-glutamine and N-acetyl D-glucosamine provide nutrient support for the digestive system.* **DigestMORE** may be taken by anyone who wants to maximize the nutrients they obtain from their food, while promoting healthy digestive function.

ReNew Life uses an advanced process called *SmartZYME* for the protease, lipase, amylase and cellulase in our enzyme formulas. This means we use a fusion of up to three different strains of each of these enzymes to increase the potency of the formula. This multi-strain blending ensures that our enzymes are active over the wide range of pH levels found in the human digestive system.

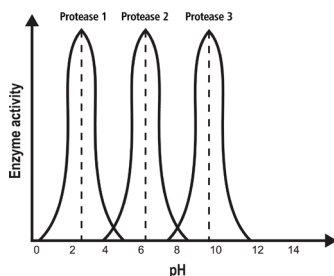

Illustration shows how the *SmartZYME* blend of three different strains of protease, for example, ensures increased digestive activity over a wider pH range. (Note: not an exact graph).

- Protease, Bromelain, Papaya** - help break down protein*
- Amylase** - helps break down carbohydrates*
- Lipase** - helps break down fats*
- Cellulase** - helps break down vegetable fiber (cellulose)*
- Malt Diastase** - helps break down carbohydrates*
- Pectinase w/phytase** - helps break down pectin and phytates (found in grains and beans)*

Available in 90ct, 135ct or 20ct

Supplement Facts

Serving Size: 1 Capsule

	Amount per Serving	%DV**
Plant-based Enzyme Blend	210 mg	
Protein Digestive Complex with <i>SmartZYME</i>		
Protease Blend	20,000 HUT	***
Bromelain	260,000 PU	***
Papaya fruit	25 mg	***
Fat Digestive Complex with <i>SmartZYME</i>		
Lipase Blend	180 FIP	***
Carbohydrate, Fiber and Sugars Digestive Complex with <i>SmartZYME</i>		
Amylase Blend	9,000 DU	***
Lactase	250 ALU	***
Cellulase Blend	250 CU	***
Invertase (Sucrase)	395 SU = 130 INVU	***
Malt Diastase	125 DP ^o	***
Pectinase w/Phytase	21 endo-PG	***
Sensitive Stomach Blend	170 mg	
L-Glutamine, Ginger root, Marshmallow root, N-Acetyl D-Glucosamine, Gamma Oryzanol		***

** Percent Daily Values (DV) are based on a 2,000 calorie diet.
*** Daily Value not established

Other Ingredients: Vegetable capsule (vegetable fiber and water)
This product contains an ingredient derived from crustacean shells (shrimp, lobster, crab).

Directions: Take 1 capsule with meals. May Increase to 2 capsules if needed.

WARNING: Consult your physician before using this or any product if you are pregnant, nursing, trying to conceive, taking medication or have a medical condition.

DigestMORE was formulated by Brenda Watson, C.N.C., president of ReNew Life Formulas and the founder of natural healthcare clinics specializing in digestive care.
