Help Renew Your Feminine Balance

Women experience yeast and urinary tract issues more often than men, in part due to frequent disruptions in vaginal flora. When our natural defenses are weakened due to poor diet, too much sugar, stress, illness, or medication use, harmful microorganisms such as Candida may thrive and contribute to health concerns. When this happens, normally harmless vaginal flora can grow out of control and disrupt the pH balance. Rapid Yeast Relief is formulated exclusively for women to maintain a healthy vaginal flora balance and help with urogenital tract health.*

Powerful Dual-Action Support

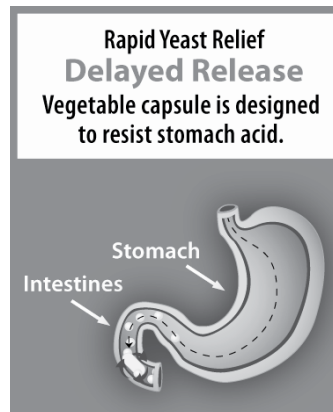

Rapid Yeast Relief is a unique dual-action formula to promote optimal vaginal and urinary tract health.*

Part 1: Contains potent enzymes proven to:

- Help break down Candida cell walls*
- Reduce development of protective coatings or biofilms often formed by harmful microflora*
- Aid in disruption of bonds Candida can use to adhere to vaginal wall*

Part 2: Contains 20 billion active probiotic cultures per capsule known to:

- Promote a healthy vaginal flora balance*
- Help regulate vaginal pH*
- Replenish good bacteria for urogenital health*
- Support overall urinary tract health*
