

CANDIZYME™

Powerful Multi-Enzyme Formula

- Daily Enzyme Formula for Yeast Overgrowth*
- Maintains Balanced Intestinal Environment*
- Supports Detoxification of Yeast*
- With SmartZYME™ Blend for More Potent Enzymes
- No Binders, Fillers or Excipients

What is Yeast Overgrowth?

Candida albicans is a microscopic yeast organism found in the human digestive tract. If yeast is allowed to grow out of control it may lead to fatigue, brain fog, sugar cravings, gas and bloating, recurrent vaginal infections or bladder infections, and more. Candizyme is a powerful enzyme formula to support the detoxification of yeast overgrowth and promote a balanced intestinal environment. It was formulated to use during cleansing and afterwards for daily maintenance.

Candizyme's Unique Enzyme Balancing Blend:

- Lysozyme supports the healthy intestinal balance of yeast organisms*
- Cellulase and hemicellulase help break down cellulose (vegetable fiber) and yeast cells*
- Amylase, invertase, lactase, glucoamylase and malt diastase help break down sugars and carbohydrates before they can ferment or be used by yeast*
- Protease helps break down proteins*
- Lipase helps break down fats and oils*

Helpful Dietary Changes While Addressing Yeast Overgrowth:

- Avoid or reduce intake of sugar
- Avoid or reduce intake of refined carbohydrates
- Avoid foods that contain mold or yeast
- Avoid artificial flavors, sweeteners and colors

Candizyme was formulated by Brenda Watson, C.N.C., president of ReNew Life Formulas and the founder of natural healthcare clinics specializing in digestive care.

Available in 45 ct or 90 ct

Supplement Facts

Serving Size: 3 Capsules

	Amount per Serving	%DV**
Enzyme Balancing Blend	1,675 mg	
	Activity	
Protease <i>SmartZYME</i>	300,000 HUT	***
