- Provides Bulk for Healthy, Well-Formed Stools*
- Helps Remove Intestinal Toxins*
- Relieves Occasional Gas, Bloating & Cramping
- Safe & Effective
- Kaolin Clay, Apple Pectin & Activated Charcoal

What is Occasional Diarrhea?

Occasional diarrhea is defined as frequent loose or watery bowel movements and may include abdominal cramping or bloating. The resulting loose stools can rob your body of necessary fluid and may cause dehydration. If not addressed properly, occasional diarrhea may lead to more serious health problems over time.

DiarrheaSTOP is a natural mineral and fiber blend formulated to help alleviate loose stools by providing bulk for healthy, well-formed stools and promote the removal of harmful toxins from the intestinal tract.*

DiarrheaSTOP includes:

Kaolin Clay: Used traditionally for centuries to control occasional diarrhea. The beneficial minerals in kaolin are thought to bind with and help remove intestinal toxins.*

Activated Charcoal: Has been shown to safely and effectively bind with pollutants, chemicals and other environmental toxins in the gastrointestinal tract to help prevent their absorption by the body.* Charcoal has also been shown to help relieve occasional gas, bloating and intestinal discomfort.*

Apple Pectin: A natural soluble fiber derived from apples that helps provide the bulk necessary for healthy, well-formed stools.* Apple pectin may also help relieve abdominal cramping associated with occasional diarrhea.*

Supplement Facts

Serving Size: 2 Capsules	Servings per Container: 30	
	Amount per Serving	%DV**
Kaolin Clay	1,400 mg	***
Apple Pectin	300 mg	***
Activated Charcoal	150 mg	***
** Percent Daily Values (DV) are based on a 2,000 calorie diet.
