

FLORABABY™

Advanced Infant and Toddler Probiotic Formula with Active Bifidobacteria and Lactobacillus Cultures

- 5 viable strains of beneficial bacteria
- Contains essential strain B. infantis
- 4 billion active cultures per gram
- Mixes easily with infant formula, juice, milk or other liquid
- Pleasant taste

Infants receive their first beneficial bacteria during the birthing process. Supplying additional beneficial bacteria throughout the early years can help support overall digestive and immune health.*

FloraBABY™ provides 5 strains of beneficial bacteria specifically chosen for their prevalence in the digestive tracts of infants and toddlers, including B. infantis, the most important strain of beneficial bacteria.*

Supplement Facts

Serving Size: 1 level scoop (1 gram)
Servings per container: 60

	Amount Per Serving	% Daily Value

* At time of manufacture
** Daily Value not established

Directions Infant to 3 years: Take ½ scoop of FloraBABY per day for 5 days. Mix with cool or warm infant formula, juice, milk or other liquid immediately before use. After 5 days, increase to 1 level scoop per day.

Directions 4+ years: Take 1 level scoop of FloraBABY per day (may be repeated up to 3 times per day). Mix with cool or warm infant formula, juice, milk or other liquid immediately before use.

Do not mix with hot liquid or food.

Consult your pediatrician before beginning any probiotic formula.

Harmonium International manufactures this product for ReNew Life and guarantees it to contain at least 4 billion viable cells per serving at time of manufacture.

FloraBABY was formulated by Brenda Watson, C.N.C., president of ReNew Life Formulas and the founder of five natural healthcare clinics specializing in internal cleansing and detoxification.
