

Total Kidney Detox™

Natural Ingredients Support Kidney, Bladder and Urinary Tract Health*

- Promotes detoxification of the kidneys*
- Nourishes the urinary tract*
- With uva ursi, potassium & cranberry
- No binders or fillers

Every day, the kidneys filter several quarts of fluid from the bloodstream, allowing metabolic waste (urea) to leave the body in urine. The kidneys also adjust the body's balance of calcium, potassium, and phosphate. The bladder is a storage organ for urine that will drain through the urinary tract.

Total Kidney Detox is a 2-part blend of herbs and potassium that helps to detox the kidneys, bladder and urinary tract.*

Total Kidney Detox Part 1: includes cranberry extract, and other herbs to help promote the normal, healthy, sterile environment of the urinary tract.* Herbs to help detox the kidneys and urinary system include stinging nettle, corn silk, parsley, dandelion and horsetail.*

Total Kidney Detox Part 2: contains alkalinizing compounds used traditionally to help soothe the kidneys, bladder and urinary tract.* This evening formula contains uva ursi and potassium. Uva ursi is an herb used traditionally to detox the urinary tract.* Potassium helps to make the urine more alkaline.*

Total Kidney Detox is designed to be taken in two 2-week periods, with a 2-week resting period between each supplementation period.

We suggest drinking 8 to 10 glasses of purified water per day while detoxing with Total Kidney Detox.

Total Kidney Detox 1 Morning Formula
