- Fast-acting digestive enzyme blend
- Relieves occasional indigestion & heartburn*
- Enhances digestion & nutrient absorption*
- Helps soothe & nourish the intestinal tract*
- Betaine HCl, plant-sourced enzymes & herbs*

Stop Indigestion Before it Starts

Occasional indigestion may be the result of several factors, including a lack of hydrochloric acid (HCl), also known as low stomach acid. Natural supplementation with HCl, along with plant-derived enzymes and soothing herbs may help relieve occasional indigestion, heartburn and sour stomach.*

IndigestionSTOP™ is made with natural plant-derived enzymes and HCl to help break down a wide variety of foods and enhance nutrient absorption. Added herbal ingredients help soothe and nourish the intestinal tract.*

IndigestionSTOP includes:

Betaine Hydrochloride: HCl plays a crucial role in protein digestion. When HCl levels are deficient, protein may not be broken down properly and indigestion may occur.

Protease, Amylase, Lipase and Cellulase: Powerful plant-sourced enzymes help digest proteins, carbohydrates, fats and vegetable fiber by breaking them into smaller particles more easily absorbed by the body.*

Ginger and Gentian: Natural herbal ingredients that help stimulate the digestive process by initiating the flow of digestive fluids.* Together they help ease feelings of nausea and sour stomach and may also help prevent occasional gas and bloating.*

Meadowsweet Herb and Peppermint: Meadowsweet has natural antacid properties shown to soothe and protect the lining of the digestive tract.* Peppermint aids in digestion by helping to calm the stomach and prevent occasional nausea and heartburn.*

Supplement Facts

Serving Size: 2 Capsules			
	Amount per Serving		%DV**
