- Fast-acting natural formula
- Helps digest milk, cheese & other dairy foods*
- Helps relieve occasional gas, bloating & diarrhea*
- Helps ensure more complete digestion*
- Natural plant-derived enzymes & probiotics

Do You Have Trouble Digesting Dairy Foods?

Dairy foods such as milk, cheese and yogurt are an important part of a healthy diet, but many people have a difficult time digesting them. That's because their bodies lack the ability to digest lactose, the sugar found in milk and other dairy products. This may result in gas, bloating, and occasional cramping and diarrhea.

LactoseSTOP™ is an advanced digestive enzyme blend uniquely formulated to help the body break down and digest dairy foods.* It combines powerful plant-sourced enzymes with probiotics to ensure more complete digestion and provide relief from symptoms of lactose intolerance.*

LactoseSTOP includes:

Lactase: A digestive enzyme needed by the body to help break down lactose (milk sugar) in the digestive tract. When lactose is not broken down completely, it may lead to gas, bloating, occasional diarrhea and abdominal pain.*

Lipase and Papain: Two beneficial digestive enzymes that help digest the fat and protein found specifically in dairy foods.*

LactoWise™: A shelf-stable probiotic strain of health-promoting bacteria shown to assist with the production of lactic acid, which helps break down and digest dairy foods. Added galactomannan, a prebiotic, further stimulates growth of healthy intestinal bacteria to support dairy digestion.*

Supplement Facts

Serving Size: 1 Capsule

Amount per Serving			%DV**
Proprietary LACTOSE STOP Blend			130 mg
<i>Digestive Enzyme</i>	<i>pH Range</i>	<i>Activity</i>	
Lactase	3.5 - 5.5	10,000 ALU	***
Lipase	4.0 - 7.0	100 FIP	***
Papain	4.0 - 7.0	86,400 PU	***
LactoWise™ (L.sporogenes, galactomannan)			.3 billion cfu† ***

** Percent Daily Values (DV) are based on a 2,000 calorie diet.

*** Daily Value not established

† At time of manufacture

3,000 ALU of Lactase will break down the lactose in an 8-oz. glass of milk in one hour. 20,000 PU of Papain will break down the protein in an 8-oz. glass of milk in one hour.

Other Ingredients: Vegetable capsule (plant fiber, water) and vegetable cellulose

Directions: Take 1 capsule at the beginning of each meal or snack that contains dairy. May take additional capsules as needed.

KEEP OUT OF REACH OF CHILDREN. NO REFRIGERATION NEEDED.

WARNING: Consult your physician before using this or any product if you are pregnant, nursing, trying to conceive, taking medication or have a medical condition.

LactoseSTOP™ was formulated by Brenda Watson, C.N.C., president of ReNew Life Formulas and the founder of natural healthcare clinics specializing in internal cleansing and detoxification.
