

WOMANZYME™

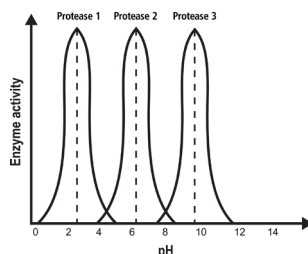

- Helps relieve occasional bloating and other typical discomforts associated with PMS*
- Enzyme blend to help relieve gas and bloating associated with digestion of some foods*
- Vegan formulation in vegetable capsules

WomanZYME is formulated with high-quality enzymes and herbal extracts to support digestion and help relieve the common symptoms of premenstrual syndrome (PMS).* Many women experience occasional gas and bloating due to difficult-to-digest foods, as well as around the time of their menstrual cycle.

WomanZYME contains a blend of 7 digestive enzymes, including cellulase, phytase and alpha galactosidase to help digest vegetables, beans, legumes, and grains, which commonly cause gas and bloating in people who have difficulty digesting complex carbohydrates.* WomanZYME also contains protease, amylase, lipase, and invertase to aid in the digestion of protein, starch, fats and sugars.*

WomanZYME also uses fennel, an herb used traditionally to relieve gas. The herbal extract blend in WomanZYME contains wild yam root, chaste tree fruit and stinging nettle. These herbs have been used traditionally to relieve the common symptoms associated with PMS. WomanZYME can be taken during or around the time of her menstrual cycle or for daily maintenance by any woman who wants to improve her digestion and help relieve occasional gas and bloating.*

ReNew Life uses a SmartZYME process for protease. The SmartZYME process is comprised of multiple enzyme strains blended together for the ability to break down food over a broader range of pH levels in the body.

Graph is not exact but is used to illustrate the benefits of the multiple protease strains in the SmartZYME Blend.

Supplement Facts

Serving Size: 2 Capsules		Servings per Container: 30		
	Amount per Serving	%DV**
