

24 Billion FLORA SMART™

Daily maintenance probiotic formula supports digestive health*

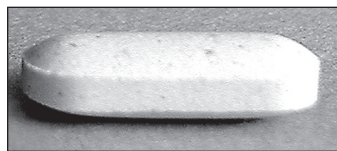

- 24 billion probiotic bacteria per caplet
- 10 strains of microflora
- High Bifidobacteria count
- Shelf-stable
- Individually packaged for convenience and moisture protection

FloraSMART™ 24 Billion contains 10 strains of beneficial microflora, including Bifidobacteria, Lactobacilli, and Lactococcus cultures to support intestinal and immune health.* In a healthy small intestine, Lactobacilli are the most prevalent probiotic, and Bifidobacteria are the most prevalent in the large intestine (or bowel).

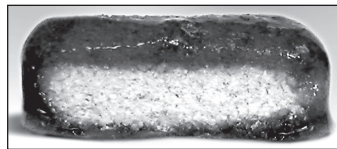

FloraSMART BIO-tract™ Technology

FloraSMART probiotic formulas are ideal for travelers and people on the go. Conveniently packaged in individual packets that fit easily into pockets, purses or briefcases, each FloraSMART caplet uses a unique BIO-tract™ delivery system to safely and effectively deliver probiotics to the intestines.

The BIO-tract™ delivery system consists of natural plant-based compounds that form a gel around each caplet when it is exposed to liquids. The gel coating allows the caplet to bypass the harsh acidity of the stomach and deliver the probiotics directly to the intestines. Each caplet breaks down over a 10-hour period, offering a true controlled release of the probiotics. FloraSMART caplets are packaged individually in a foil packet for convenience and moisture protection.

Dry caplet before entering stomach acid

Vegetable gel layer that forms around caplet to help protect probiotics from stomach acid

FloraSMART™ 24 Billion

Supplement Facts

Serving Size: 1 Caplet		Servings per container: 30
	Amount per Serving	%DV**
