

INTESTI^{NEW}™

- Natural ingredients used traditionally to support the integrity and healthy function of the intestinal lining*
- Contains L-Glutamine, N-Acetyl D-Glucosamine, Gamma Oryzanol, and natural herbs
- Available in powder or capsules

What is the intestinal lining?

The digestive tract consists of the mouth, esophagus, stomach, small and large intestines, and it serves as a place for food breakdown and nutrient absorption. The intestinal lining is made of cells and a thin mucus layer that lines the small and large intestines. This lining is a delicate structure that acts as a semipermeable membrane, allowing nutrients into the bloodstream to feed every cell in the body and blocking the passage of unwanted materials. A properly functioning intestinal lining is vital to overall health and well-being.*

Where does this lining come from?

In a healthy digestive tract, the intestinal cells are shed and renewed every 3-5 days to rebuild and maintain a properly functioning intestinal lining. The amino acid L-glutamine is the primary fuel for this process. L-glutamine is the most abundant amino acid in the human body. When functioning properly, the body converts L-glutamine into N-acetyl D-glucosamine, an amino sugar that is found in all tissues of the body. Much of the intestinal lining is composed of

N-acetyl D-glucosamine, which serves to hold the cells of the intestinal lining together.

Why is the intestinal lining so important?

The intestinal lining serves many functions. Three of the most critical are:

- 1) Lubricating intestinal contents
- 2) Helping with nutrient absorption by allowing properly digested foods to pass into the bloodstream
- 3) Serving as a protective barrier to prevent the absorption of harmful bacteria and undigested foods

IntestiNEW™

IntestiNEW is a natural L-glutamine and N-acetyl D-glucosamine supplement that contains herbs to help soothe the digestive tract.* Supplementation with L-glutamine and N-acetyl D-glucosamine may be beneficial in the maintenance of proper intestinal lining health.* Gamma oryzanol, also in IntestiNEW, is a natural extract of rice bran oil, which has been shown to exert antioxidant effects in the digestive tract.*

IntestiNEW was formulated by Brenda Watson, C.N.C., president of ReNew Life Formulas and the founder of five natural healthcare clinics specializing in internal cleansing and detoxification.

IntestiNEW - Capsules

Supplement Facts

Serving Size: 2 Capsules		Servings per Container: 45	
	Amount per Serving	%DV**	
L-Glutamine (free form)	835 mg	***	
N-Acetyl D-Glucosamine	35 mg	***	
Gamma Oryzanol	20 mg	***	
Proprietary Herbal Blend	10 mg		
Cranesbill Root (Geranium maculatum)		***	
Ginger Root (Zingiber officinale)		***	
Marigold Flower (Calendula officinalis)		***	
Marshmallow Root (Althaea officinalis)		***	

** Percent Daily Values are based on a 2,000 calorie diet.
*** Daily Value (DV) not established

Other Ingredients: Vegetable capsule (vegetable fiber and water)

Directions: Take 2 capsules in the morning on an empty stomach. May be repeated in the evening. May take up to 12 capsules daily.

WARNING: Do not use this product if you are pregnant or nursing. Consult your physician before using this or any product if you are trying to conceive, taking medication or have a medical condition.

IntestiNEW - Powder

Supplement Facts

Serving Size: 1 Scoop (5.4 gm)		Servings per Container: 30	
	Amount per Serving	%DV**	
Calories	21		
Protein	5		
L-Glutamine (free form)	5000 mg	***	
N-Acetyl D-Glucosamine	200 mg	***
