

PARAZYME™

ParaZYME combines the health benefits of four supplements in one capsule.

- 10 plant-based enzymes enhance digestion and nutrient absorption*
- Hydrochloric acid and pepsin support complete protein digestion*
- L-glutamine, N-acetyl D-glucosamine and Butyric acid support the intestinal lining*
- Probiotics promote overall digestive and immune health*

ParaZYME™ is a digestive enzyme supplement with hydrochloric acid, pepsin, probiotics and other beneficial nutraceuticals that support overall digestive health and help maintain a healthy intestinal lining.*

ParaZYME contains:

- 10 plant-based enzymes that help break down food into nutrients the body can use. With today's diet of cooked and processed foods, many of the vital, natural enzymes in foods are cooked out, and even with the healthiest diet, if you're not digesting your food well, your body is not getting the valuable nutrients it needs.
- Hydrochloric acid and pepsin work together in the stomach to help ensure complete protein

digestion. Further, in many cases, hydrochloric acid taken with meals helps to relieve occasional heartburn.*

- A probiotic blend of Lactobacillus acidophilus, Bifidobacterium bifidum and Bifidobacterium infantis helps to maintain healthy intestinal bacteria balance.*
- L-glutamine, N-acetyl D-glucosamine and butyric acid are added to support the intestinal lining.

ParaZYME may be taken as a daily digestive enzyme supplement or together with the ParaGONE™ cleansing program.

Supplement Facts		
Serving Size: 1 Capsule		Servings per Container: 90
	Amount per Serving	% DV**
Proprietary Blend 750 mg		
Betaine Hydrochloride		***
Borage seed (Borago officinalis)		***
Flax seed (Linum usitatissimum)		***
L-Glutamine		***
Soy Lecithin		***
Butyric acid (as calcium butyrate)		***
FOS (fructooligosaccharide)		***
