

SMOKERS' CLEANSE™

Supports Lung Detoxification and Healthy Bronchial Function*

- 3-part, 30-Day Program
- Helps Reduce the Desire to Smoke*
- Promotes Overall Lung and Respiratory Health*
- Helps Reduce Stress*
- Natural Ingredients, no Binders or Fillers

According to the American Lung Association, cigarette smoke contains more than 4,800 different chemicals, many of which can compromise optimal health. Secondhand smoke also presents a health hazard for thousands of people each year.

Smokers' Cleanse is a three-part formula developed for those who want to naturally cleanse the body and temporarily ease their desire to smoke.*

Part 1: Detoxify and Support. Combines natural ingredients to provide antioxidant support and help cleanse toxins from the body.* Herbs such as Malabar nut support healthy bronchial function, and pine bark extract provides a beneficial expectorant effect.* Fenugreek and mullein help soothe mucous membranes and promote healthy lung and respiratory function.* Added wasabi helps to detox the lungs of harmful environmental toxins, along with N-Acetyl-L-Cysteine (an amino acid involved with glutathione production), which promotes healthy lung detoxification.*

Part 2: Reduce Desire. Formulated with herbal ingredients and amino acids that temporarily reduce the desire to smoke and help with stress.* Gamma aminobutyric acid (GABA) produces a calming effect and helps relieve the feelings of tension.* Pleasant-tasting orange flavored chewable tablets help satisfy oral cravings.*

Part 3: Stress Relief. Combines natural herbs and vitamins to help relieve stress and promote feelings of calmness.* Meadowsweet herb extract helps calm the body.*

Smokers' Cleanse was formulated by Brenda Watson, C.N.C., president of ReNew Life Formulas and the founder of natural healthcare clinics specializing in internal cleansing and detoxification.
